Did you know?

Nearly half of all adults in Wales are estimated to be living with a long-standing illness

Of those, the lives of more than half are either somewhat or severely limited by their illness

Illness not only has a physical impact on us, but also an emotional one

So many amazing medical professionals treat and support the physical impacts of living with illness, both in hospital and in the community.

However, it is also essential to support the emotional health of people living with physical illness.

Supporting the emotional health & wellbeing of those living with physical illness is the mission of **Daring to Dream**

Daring to Dream is seeking your help so that **together we can make a difference** to many, many adults in Wales.

Our fundraising aim:

Help us raise funds to create inviting, comfortable and safe dayrooms in the 'Care for the Elderly' wards at Princess of Wales Hospital, Bridgend.

Improving these rooms will enable the ward teams to support even better the physical and emotional needs of their patients. The rooms will be used to encourage patients to engage in wellbeing activities, and to improve their social interaction over lunch or coffee or with their families.

Creative ideas

“ We all need extra support for our emotional health when we are at our most vulnerable clinically. Daring to Dream's mission is to highlight exactly this need.

One aspect of their work is creating supportive environments, 'sanctuary rooms' as we call them. Rooms where patients and their families can 'step away' from the painful journey they might be on, as our family were for many years, to support each other, to talk together and to talk with the clinical teams too.

Daring to Dream is also creating other supportive environments in day rooms that provide a "distraction" for patients to engage with activities to support their emotional wellbeing, enable them to also socialise more with others.

We've seen first-hand the impact of this amazing charity and are so grateful to be Ambassadors for it. **”**

**Hamed and Hessam Amiri,
Ambassadors for Daring to Dream**

Hamed is also the author of 'The Boy with Two Hearts'.

Together the brothers have developed the production of the play by the same name.

'The Boy with Two Hearts' was the family's description of their brother Hussein Amiri, who was born with congenital heart disease and is also in the photograph.
